HAZER 1200

Generators / Smoke

series EVENT by FLASH

Product code: F5100350

HAZER 1200 is very efficient smoke generator with power regulation, interval clock, and two-channel control (fan speed, intensity). The whole thing is located in a dedicated ATA transport box, the cover of which covering the front of the device is completely removable. This significantly facilitates access to the two-liter, removable liquid tank, power sockets, DMX in/out connectors, as well as the control panel with an LCD display and six buttons. Thanks to the 1145W heater, full readiness for operation is achieved after about 5 minutes, fluid consumption is only 4.3 ml/min, and all this makes HAZER 1200 perfect for closed rooms and during shows, concerts and events where the expected there is high efficiency.

flash fixtures: We have our own database of ready-made fixtures. Check if your product is included in the database, or place an order by emailing us at fixtures@flashpro.pl
