Product code: F7200270

LedBarACCU 920 IP WDMX is a very durable, multi-purpose LED battery bar in IP65 waterproof class. Equipped with high quality 9 diodes with a power of 18W each, enabling smooth mixing of RGBW-AUV colors with a constant angle of light, with an exceptionally high operating frequency of diodes at 64 kHz, which allows to eliminate the flickering effect and a built-in 2.4G receiver / transmitter for wireless DMX operation. In addition to the constant power source (AC), this device uses efficient battery technology, based on lithium batteries (18650) which can be charged and discharged more than 500 times. Full charging of the batteries takes +/- 6h, which allows 2-3h of work of the reflector at maximum light output, 5-6 hours in automatic mode, 15h in monochrome mode.
