GOLD Fog Fluid 5L

Smoke Fluid for Fog Machines

flashPRO
INNOVATIVE STAGE LIGHTING

GOLD Fog Fluid - professional premium fog fluid designed for demanding stage and event applications. Based on a water formula with high-grade, high-purity glycols, it ensures maximum consistency of effect and stable machine operation. The formula, based on distilled water and carefully selected components, guarantees clean, white fog without unwanted odors or residues. The product is odorless, colorless, non-flammable, and non-toxic. Leaves no residue and is suitable for all modern fog machines. Manufactured in accordance with REACH and CLP regulations and provided with a Safety Data Sheet (SDS). Safe to use under proper operating conditions. Application: Ideal for professional use — concerts, stage productions, theaters, clubs, and events where high quality and repeatability are essential. Effect: Dense, white fog with a well-balanced profile, combining good visibility with optimal hang time. A versatile effect suitable for a wide range of applications.

flash fixtures: We have our own database of **ready-made fixtures.** Check if your product is included in the database, or place an order by emailing us at **fixtures@flashpro.pl**

Product code: F5900338

Product Specification

PRODUCT SAFETY INFORMATION (SHORT SDS)

1. Product Identification
Product: Smoke Fluid
Manufacturer: Flash-Butrym Sp. J.
Application: Designed for use in professional fog machines to generate artificial smoke effects.

2. Hazard Identification
The product is not classified as hazardous according to EU CLP regulations.
No hazard symbols or warning labels are required.

3. Composition
Mixture based on:

* Propylene glycol
* Triethylene glycol

4. First Aid Measures
Inhalation: Move to fresh air if discomfort occurs
Skin contact: Wash with water
Eye contact: Rinse with water for at least 15 minutes
Ingestion: Drink water, do not induce vomiting
Seek medical advice if symptoms occur

5. Fire-Fighting Measures
Use extinguishing agents suitable for the surrounding fire
Combustion may produce harmful gases such as CO and Co_2

6. Accidental Release Measures
Avoid direct contact
Absorb with inert material (e.g. sand)
Prevent from entering drains or environment

7. Handling and Storage
Store in original containers
Recommended temperature: +5°C to +35°C
Protect from frost, heat and direct sunlight

8. Exposure Controls / Personal Protection
No special protective equipment required under normal conditions of use

9. Physical and Chemical Properties
Form: Liquid
Color: Colorless
pH: approx. 7
Solubility: Water-soluble
Density: approx. 1.0 g/cm^3

10. Stability and Reactivity
Stable under normal conditions
Avoid extreme temperatures, fire and strong oxidizing agents

11. Toxicological Information
Not classified as hazardous
No known significant health effects when used properly

12. Ecological Information
Biodegradable
Does not meet PBT or vPvB criteria

13. Disposal Considerations
Do not dispose into sewage
Dispose in accordance with local regulations
